

Replacing KenCast Fazzt Expired License with License Extension: (5/19/2005)
Intended for DHFS Receivers 465504 – 465511

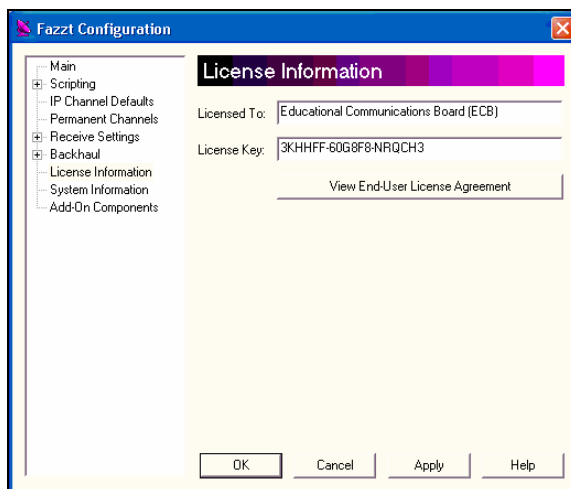

1. Locate the service tray in the lower-right hand corner of your desktop.

2. Place the cursor over the KenCast Fazzt hot pink satellite dish.  The KenCast Fazzt hot pink satellite dish has a red X with a white background on it now because the license has expired.
3. Right-click on the satellite dish.

4. Select **Configuration**.
5. Within the Fazzt Configuration software, click on **License Information**.
6. In the right panel, delete the existing license key since it is expired.
7. Type in the new license key 3KHHFF-60G8F8-NRQCH3

8. Click **Apply** button
9. Select **Main**
10. Click **Start** button
11. Click **OK** button
12. The KenCast Fazzt Configuration menu will close.
13. The KenCast Fazzt hot pink satellite dish in the service tray in the lower-right hand corner of your desktop should no longer have a red X with a white background on it. It should now look like:  The license extension which you have just successfully installed will work until it expires on July 31, 2005.
